

California OES Weather Threat Briefing

Saturday, June 5, 2021
9:00 AM PDT

Day 1 (Saturday): Critical fire weather conditions with gusty winds and very dry conditions will develop today through this evening across northeast California, particularly Modoc and Siskiyou Counties. One more day of moderate heat impacts will occur across the Central Valley and much of southeast California as well.

National Weather Service

Salt Lake City, UT*

WEATHER KEY POINTS

06/05/21 - 06/11/21

Saturday - Friday

- Dry conditions continue across the state through much of next week
- One more really warm day today across the Central Valley and much of southeast California, where moderate heat risk will be seen. A notable cooling trend is expected beginning Sunday and continuing through much of next week for most areas
- Critical fire weather conditions expected across Siskiyou and Modoc Counties today into the middle of this evening
- Additional periods of locally gusty winds of 25-40 mph and very dry conditions will produce elevated fire weather conditions Sunday through much of next week, especially in the mountains
 - Critical fire weather conditions could develop for portions of Inland and Southern Regions Sunday and Monday
